

## Aluminium Foil-PVC (Flame-resistant) Smooth Flow Air Duct Model: A2SF

- ☐ Color: White
- ☐ Size Availability: 4", 5", and 6"
- ☐ Product Design: The A2SF was designed with stronger material to reduce the wrinkles inside the air duct to decrease air friction. The result is smoother air flow and less power of air ventilation fans and yet easy to install.
- ☐ Purpose of use: Kitchen and bathroom ventilation duct, heating facilities and hygienic cooling for condominiums, apartments and other buildings
- ☐ Fire Classification: BS476 Class 0

<b>Materials</b>	Aluminum Foil, Polyester Film, and PVC (Flame resistant)
<b>Structure</b>	Laminated x 2ply
<b>Wire</b>	Copper Coated High Carbon Steel Bead Wire
<b>Wire Spacing</b>	19 mm
<b>Thickness</b>	180 um (micron)
<b>Temperature Range</b>	-30°C ~ +140°C
<b>Air velocity</b>	Max 25 m./sec
<b>Working Pressure</b>	Max 250 mm. WG (2500 Pa, or 10" W.G.)
<b>Standard Length</b>	8 meters
